Subject: Bristol Bay Remote data

Phil,

We have responded to the HQ EPA SOW, sent to Anna Green and Mark Jen today.

It occurs to me that it would be in the best interest of the mining company to share their data with EPA, if they want to get a permit from you. Have you had that conversation? Rather than proposing EPA purchase Lidar (have it flown), I think it would be a fruitful conversation to engage the mine company about what EPA needs are in order to issue the permit they need. So I would encourage that conversation.

Just a thought.

Cheers,

Gwen

"Never in his life had he seen a river before –

This sleek, sinuous, full-bodied animal, chasing and chuckling, gripping things with a gurgle and leaving them with a laugh... All was a-shake and a-shiver—glints and gleams and sparkles, rustle and swirl, chatter and bubble."

which may be a computer program. This attached computer program could
contain a computer virus which could cause harm to EPA's computers,
network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced
into the EPA network. EPA is deleting all computer program attachments
sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you
should contact the sender and request that they rename the file name
extension and resend the Email with the renamed attachment. After
receiving the revised Email, containing the renamed attachment, you can
rename the file extension to its correct name.

For further information, please contact the EPA Call Center at
(866) 411-4EPA (4372). The TDD number is (866) 489-4900.
